

Refund & Billing Policy

doc_refund_billing | Pathwise Help Center

Pathwise processes refund requests according to the table below, based on plan type, billing frequency, and how long the subscription has been active. Exceptions and special cases are described in the sections that follow the table.

Scenario	Refund Window	Refund Amount	Approval Needed	Process
Monthly plan, cancelled within 7 days of billing	7 days	Full refund	None — automatic	Automatic via billing portal
Monthly plan, cancelled after 7 days	N/A	No refund for current period; access continues until period end	N/A	N/A
Annual plan, cancelled within 30 days of billing	30 days	Full refund	None — automatic	Written request to billing@pathwise example
Annual plan, cancelled after 30 days	30 days	Prorated refund for unused full months remaining	Account manager approval	Written request to account manager
Annual plan, cancelled due to service outage exceeding SLA	60 days	Full refund for the affected billing period plus one month credit	Support team escalation required	Written request citing the specific outage incident
Enterprise plan (any cancellation)	Per contract terms	Varies — defined in signed agreement	Dedicated account manager sign-off	Written request to dedicated account manager

Processing Time and Exceptions

Refunds are processed within 5-10 business days once approved, and the customer receives an email confirmation once the refund has been issued to the original payment method. Enterprise refund requests must be submitted in writing to the assigned account manager and are subject to the cancellation clause in the customer's signed contract, which may include a notice period of up to 30 days before cancellation takes effect. During this notice period, the customer retains full access to their account and is billed as normal, since the notice period is considered part of the active contract term rather than a grace period. If a customer disputes a charge with their bank or card issuer before contacting Pathwise support, any pending refund request is automatically placed on hold until the dispute is resolved, since Pathwise cannot process two simultaneous refund mechanisms for the same charge. Once the bank dispute is resolved in the customer's favor, no further Pathwise refund is issued for that specific charge, since the bank reversal already returns the funds. If the dispute is resolved against the customer, the original Pathwise refund request can then be reopened and processed according to the standard timeline described above.

Failed Payments

Failed payments are retried automatically three times over 7 days. If all retries fail, the account is downgraded to a read-only state until payment is resolved; no data is deleted during this period.

Billing Disputes

Billing disputes must be raised within 60 days of the charge date. Pathwise does not offer partial refunds for unused seats on monthly plans.

Currency and Tax Handling

All Pathwise charges are billed in US dollars regardless of the customer's location. Where applicable, sales tax or VAT is calculated based on the billing address on file and added as a separate line item on the invoice. Customers in the European Union can submit a valid VAT number in Account Settings to have VAT excluded from their invoice, subject to standard reverse charge rules.

Invoice Delivery

Invoices are emailed automatically to the billing contact on file within 24 hours of each charge. Past invoices are also available for download at any time from Account Settings > Billing History. Enterprise customers can request invoices be sent to a shared billing inbox or routed through a purchase-order-based invoicing process instead of automatic card billing.

Accepted Payment Methods

Starter and Growth plans accept major credit and debit cards only. Enterprise plans additionally accept ACH bank transfer and wire transfer, arranged through the assigned account manager. Pathwise does not currently accept payment via PayPal or cryptocurrency on any plan.
