

Frequently Asked Questions

doc_faq | Pathwise Help Center

Q: Can I change my plan at any time?

Yes. Upgrades take effect immediately and are billed on a prorated basis for the remainder of the current cycle. Downgrades take effect at the start of the next billing cycle.

Q: Is there a limit to how many boards I can create?

No, all plans allow unlimited boards. Limits apply to team members and storage, not board count.

Q: Can I export my data if I cancel?

Yes. Data export (CSV for tasks, ZIP for file attachments) is available for 30 days after cancellation. After 30 days, data is permanently deleted and cannot be recovered.

Q: Does Pathwise offer a mobile app?

Yes, iOS and Android apps are available on all plans, including Starter. Mobile apps support core task board functionality but do not currently support custom workflow configuration — workflows can be viewed but only edited from the web app.

Q: What happens to guest collaborators if I downgrade my plan?

Guest collaborators count toward your team member limit. If a downgrade would put you over the new plan's limit, you'll be prompted to remove members before the downgrade completes, as described in the pricing documentation.

Q: Can two people edit the same task card at the same time?

Yes, Pathwise supports real-time collaborative editing on task cards, including comments and description fields. Changes are synced within 1-2 seconds under normal network conditions.
